3. Exact wording of the motion to be voted on

In view of the fact that many Servas hosts are not yet listed in Servas Online, and also to enable travellers to obtain host lists with minimum delay, all Servas members shall be given password protected access to Dolphin so that they may download the latest available host lists in pdf format, from the Host List Storage Area. This will also reduce the workload of some key persons as they will not have to download host lists for travelers.

4. Background information and reasons for proposing the motion

Currently, when a travelling member wants a copy of a country's pdf members list, they must contact their NS, who then downloads it, and then sends it to the travelling member. But instituting a password protected way to obtain the pdfs, we facilitate the ease of travel for all our members. Let's trust our members with full access.
