Limitations of who sees Servas on line host information

US Servas

4. Background information and reasons for proposing the motion

Currently someone who signs up to become a member of Servas can access host information to see if they want to have an LOI. US Servas is very concerned that information regarding our members not be released to people who have not yet been interviewed by an approved Servas interviewer and who do not have a currently valid LOI or are a current interviewed host.

5. Who is responsible for accomplishing the results of the motion?

SOLSYS programmers with oversight from the SOLSYS committee are the only ones to set the technology which will allow only current interviewed Servas members to see other members information

6. Benefits for SI

Privacy and safety for our members.

7. Resource needs - time, human resources and specialist expertise

Some cost in programming changes to SOLSYS.

8. Budget implications

Needs to have programmers hired for the next stage of SOLSYS development. Si is planning on hiring someone anyway.
--

9. Does it affect the SI statutes?

NO, it supports statutes so that only Servas members can have access to Servas member information

10. What is the impact if the motion is not passed?
US hosts may not agree to be part of SOLSYS.
