Information in support of the candidate	I am supporting Gulsen Elyak for Treasurer of Servas International. She has proved her ability over the years. She was the convener of the Internal Audit Committee for one and half terms, and for last year and a half, she has been operating as a co-treasurer, managing all of the accounting and reporting functions. She fully understands the needs of the role and has both the technical and inter-personal capability to perform successfully in this role. I strongly support her for this role.

Information in support of the candidate	Gulsen is assistant treasurer of Servas International. She has helped me for the job of treasurer, specially in accounting and with the use of the software Zoho. She is efficient, specially by taking in account the distance work (work with the treasurer drive), the languages constraints and the heavy work to process for SICOGA or for the financial report. She is a woman and it is important that women take different position in Servas. She is from Turkey and it is important that volunteers come from different countries and continent. She is a very kind person and it is very peasant to work with her.
